Article Guidance

Article Text

This Billing and Coding Article provides billing and coding guidance for Independent Diagnostic Testing Facilities (IDTFs). Diagnostic testing performed in an IDTF must follow the supervision and credentialing guidelines set forth in this Local Coverage Article. All enrolling IDTFs must meet the supervising physician qualification/proficiency requirements and technician qualification requirements at the time of their enrollment.

Coding Guidance

IDTFs are required to report the exact CPT/HCPCS codes/procedures they intend to perform when enrolling with the CMS-855B form. If an IDTF which is already enrolled wants to perform additional CPT or HCPCS code tests that were not originally specified on its CMS-855B and that are for procedure types and supervision levels similar to its previously allowed codes, the contractor shall have the IDTF amend its CMS-855B to add the additional codes and equipment listing. A new site visit is not required. However, if the enrolled IDTF will be performing CPT or HCPCS codes for different types of procedures, or with different supervision levels, a new site visit is required. Claims submitted with

procedure codes not reported on the CMS-855B form and reviewed by the contractor will be denied.

Each IDTF will have a specific and unique list of CPT/HCPCS codes for which it can be paid by the contractor, and it is the responsibility of the IDTF to obtain specific contractor approval to bill each CPT/HCPCS code that it intends to bill. Based on equipment and personnel requirements, IDTFs are required to submit a list of all procedure codes performed by the facility to Medicare Provider Enrollment. The codes and equipment should be listed on Attachment 2, Section 1 of Enrollment Application Form CMS-855B.

Desk and Site Reviews

All new IDTF applications shall receive a thorough desk review, and a mandatory site review prior to the contractor's enrollment of the applicant and issuance of a billing number. The general purpose of both reviews is to determine whether the information listed on Attachment 2 of the CMS-855B is correct, verifiable, and in accordance with IDTF regulatory and manual requirements.

Site Visits for Mobile Units and Electronic Monitoring Services

Mobile units are required to list their geographic service area. They can be site visited by the following methods:

- The mobile unit may visit the office of the site reviewer, **OR**
- The site reviewer can obtain an advance schedule of the locations the IDTF will be visiting and conduct the site visit at one of those locations.

Transtelephonic and electronic monitoring services (e.g., 24-hour ambulatory EKG monitoring; pacemaker monitoring and cardiac event detection) should be classified as IDTFs and must meet all IDTF requirements. These entities require a supervisory physician who performs general supervision. Final enrollment of a transtelephonic or electronic monitoring service, such as an IDTF, requires a site visit.

Additional information may be found in CMS Internet-Only Manual (IOM) Publication 100-04, *Medicare Claims Processing Manual*, Chapter 35, Independent Diagnostic Testing Facility (IDTF).

Supervising Physicians

An IDTF must have one or more supervising physicians who are responsible for the direct and ongoing oversight of the quality of the testing performed, the proper operation and calibration of the equipment used to perform tests, and the qualifications of non-physician personnel who use the equipment.

Not every supervising physician has to be responsible for all these functions. These responsibilities may be divided among the supervising physicians. For example, one supervising physician may be responsible only for the operation and calibration of the equipment, while other supervising physicians are responsible for test supervision and/or the qualifications of the non-physician personnel.

Additional information may be found in the CMS IOM Publication 100-02, Chapter 15, Section 80 and 42 CFR §410.32(b) and §410.33.

Non-Physician Personnel

The contractor does not establish a credentialing service, but the contractor is authorized to determine which organizations it recognizes. For example, the use of the word “national” in the organization’s name does not, in itself, meet Medicare standards for national credentialing.

The supervising physician and non-physician personnel credentialing requirements are listed below in the Credentialing Matrix.

Additional information may be found in the CMS IOM Publication 100-02, Chapter 15, Sections 80.2, 80.3, and 190 as well as 42 CFR §410.33.

Interpreting Physicians

An IDTF is not restricted to billing only the technical component of diagnostic services. In certain situations, an IDTF can bill for both the technical component of the diagnostic test and interpretative services. This approach is referred to as billing "globally". The interpretative services must be performed by a licensed practitioner who is allowed to perform the service.

When enrolling or updating information, the IDTF shall list all physicians for whose diagnostic test interpretations it will bill. This includes physicians who are providing purchased interpretations to the IDTF (in accordance with CMS Manual System, Pub. 100-04, *Medicare Claims Processing Manual*, Chapter 1, Section 30.2), as well as physicians who are reassigning their benefits to the IDTF. The contractor will ensure and document the following:

- All physicians listed are enrolled in Medicare.
- All interpreting physicians who are reassigning their benefits to the IDTF have the right to do so.
- All required CMS-855R forms have been submitted.
- The interpreting physicians listed are qualified to interpret the types of tests (codes) listed. In accordance with this CMS requirement (CMS Manual System, Pub. 100-08, *Medicare Program Integrity Manual*, Chapter 15, Section 15.5.19.3).

Note: The applicant cannot bill globally for interpreting physicians not listed.

If an interpreting physician has been recently added or changed, the new interpreting physician must have met all of the interpreting physician requirements at the time any tests were performed.

Off-Site Interpretations

If an IDTF wants to bill for an interpretation performed by an independent practitioner off the premises of the IDTF, it must meet all instructions identified in the CMS Manual System, Pub. 100-04, *Medicare Claims Processing Manual*, Chapter 1, concerning purchased interpretations. In this scenario, there is no reassignment of benefits because the purchaser of the test is also considered the supplier of the test.

When the technical component of a test is performed by the IDTF and the interpreting practitioner is the practitioner who ordered the test, the IDTF cannot bill for the interpretation. The interpreting practitioner must bill the interpretation since the IDTF cannot bill the interpretation when the interpreting physician is the referring physician.

Purchased Diagnostic Tests and Jurisdictional Pricing

Services that are reimbursed under the Medicare Physician Fee Schedule (MPFS) are reimbursed by the payment locality where the service is furnished and by the zip code. Contractors must use the zip code of the location where the service was rendered to determine contractor jurisdiction over the claim and the correct payment locality.

When a physician, practitioner, or supplier furnishes services in payment localities that cover more than one contractor's service area (e.g., the provider has separate offices in multiple localities and/or multiple contractors), separate claims must be submitted to the appropriate contractor for processing.

Providers may not submit a global billing code on paper or electronic claims when one component of the service has been purchased. Only one service facility location (name, address and zip code) can be indicated in item 32 on the CMS-1500 form. Claims received with global services will be returned as unprocessable.

Suppliers (including laboratories, physicians, and IDTFs) must bill their local contractor for all purchased diagnostic tests/interpretations, regardless of the location where the purchased service was rendered.

Purchased Technical Components

A physician may bill for the technical component of a diagnostic test that he/she purchased from another physician, medical group or supplier. However, in order to purchase a

diagnostic test from another physician, medical group, or supplier, the purchaser must perform the interpretation (professional component). Additionally, the physician or supplier that furnished the technical component must be enrolled in the Medicare program.

Purchased Interpretations

A person or entity that provides diagnostic tests may submit the claim and, if assignment is accepted, receive the Part B payment for diagnostic test interpretations which that person or entity purchases from an independent physician or medical group if:

- The tests are initiated by a physician or medical group which is independent of the person or entity providing the tests and of the physician or medical group providing the interpretations;
- The physician or medical group providing the interpretations does not see the patient;
- The purchaser (or employee, partner, or owner of the purchaser) performs the technical component of the test. The interpreting physician must be enrolled in the Medicare program. No formal reassignment is necessary; AND
- The purchaser must keep on file the name, the provider identification number and address of the interpreting physician.

Note: This does not remove the requirement that when an entity either purchases an interpretation or a test, they must perform the other component in order to be paid for the purchased component.

In order to price claims correctly and apply purchase price limitations, global billing is not acceptable for claims received on the Form CMS-1500 or on the ANSI X12N 837 electronic format. Each component must be billed as a separate line item (or on a separate claim).

Suppliers (including laboratories, physicians, and IDTFs) must submit claims for all purchased diagnostic tests/interpretations to their local contractor, regardless of the location where the purchased service was furnished.

Additional Services/Supplies

Additional services/items (e.g., radiopharmaceutical agents, special contrast agents, medications, etc.) related to, or generally considered required for, performing a diagnostic test are also payable to an IDTF if they are commonly separately reimbursed to a physician in a physician's office setting.

An IDTF can bill these practitioner services when they are performed by a qualified practitioner in accordance with coverage, payment, and general billing rules, and in accordance with the reassignment of benefit and purchased test rules.

These additional services/items which are necessary for the performance of specific diagnostic tests may be billed by an IDTF if approval is granted by the contractor for the IDTF to bill for the specific test(s) that require such items/services. For example, some procedures require an injection of a joint for arthrography and would be allowed if the procedure is integral to the diagnostic test the IDTF is permitted to perform.

However, an IDTF is not allowed to bill for surgical procedures that are clearly not related to or required for a diagnostic test.

At the time that the IDTF requests contractor approval to perform the tests, the IDTF must identify all such items/services that it intends to bill in conjunction with specific tests.

JW and JZ Modifiers

When billing for Part B drugs and biologicals (except those provided under a competitive acquisition program [CAP]), the use of the JW modifier to identify unused drugs or biologicals from single use vials or single use packages that are appropriately discarded is required. The discarded amount shall be billed on a separate claim line using the JW modifier. Providers are required to document the discarded drug or biological in the patient's medical record.

Any amount wasted must be clearly documented in the medical record and should include the date and time, amount of medication wasted, and the reason for the wastage.

The use of the JZ modifier (attesting that there were no discarded amounts) is required on claims to report there are no discarded amounts of unused drugs or biologicals from single use vials or single use packages.

Claims for drugs separately payable under Medicare Part B from single-dose containers are required to report either the JW or JZ modifier, to identify any discarded amounts or to attest that there are no discarded amounts, respectively.

- The JW and JZ modifier policy does not apply for drugs that are not separately payable, such as packaged OPPS or ASC drugs, or drugs administered in the FQHC or RHC setting.

The JW and JZ modifiers do not apply to drugs assigned status indicator N (Items and Services Packaged into APC Rates) under the OPPS. Similarly, the JW and JZ modifiers do not apply to drugs assigned payment indicator "N1" (ASC). Please refer to IOM 100-04, Chapter 17, Section 40 for complete information on the JW/JZ modifiers.

Documentation Requirements

1. All documentation must be maintained in the patient's medical record and made available to the contractor upon request.
2. Every page of the record must be legible and include appropriate patient identification information (e.g., complete name, dates of service[s]). The documentation must include the legible signature of the physician or non-physician practitioner responsible for and providing the care to the patient.
3. The submitted medical record must support the use of the selected ICD-10-CM code(s). The submitted CPT/HCPCS code must describe the service performed.
4. Medical record documentation maintained by the IDTF must include the information listed below and be available upon request:
 - a. Written order from the treating physician, and
 - b. Hard copy documentation of the test results and interpretation.
5. The IDTF must maintain documentation to demonstrate the required physician supervision requirements were met. Also, the IDTF must maintain documentation of sufficient physician resources during all hours of operation to assure that the required physician supervision is furnished.
6. Multi-state entities must maintain evidence that supervising physicians are licensed to practice in the state(s) where the diagnostic tests are performed and the technicians performing the diagnostic test(s) are credentialed appropriately in each state in which services are performed in accordance with requirements outlined in this article.
7. Documentation maintained by the IDTF must support that the personnel performing the diagnostic test(s) have the training and proficiency as evidenced by current licensure or certification as outlined in this article. This documentation must contain verification by the supervising physician(s).

Physician Supervision of Diagnostic Procedures

Supervision Level	Description
01	Procedure must be performed under the general supervision of a physician.
02	Procedure must be performed under the direct supervision of a physician.
03	Procedure must be performed under the personal supervision of a physician.
04	Physician supervision policy does not apply when procedure is furnished by a qualified, independent psychologist or a clinical psychologist. Otherwise, the procedure must be performed under the general supervision of a physician.

05	Physician supervision policy does not apply when procedure is furnished by a qualified audiologist; otherwise, must be performed under the general supervision of a physician.
06	Procedure must be personally performed by a physician or a Physical Therapist (PT) who is certified by the American Board of Physical Therapy Specialties (ABPTS) as a qualified electrophysiological clinical specialist and is permitted to provide the procedure under State law. Procedure may also be performed by a PT with ABPTS certification without physician supervision.
21	Procedure may be performed by a technician with certification under general supervision of a physician. Otherwise, the procedure must be performed under direct supervision of a physician. Procedure may also be performed by a PT with ABPTS certification without physician supervision.
22	May be performed by a technician with on-line real-time contact with a physician.
66	May be personally performed by a physician or by a PT with ABPTS certification and certification in this specific procedure.
6A	Supervision standards for level 66 apply; in addition, the PT with ABPTS certification may personally supervise another PT, but only the PT with ABPTS certification may bill.
77	Procedure must be performed by a PT with ABPTS certification (TC & PC) or by a PT without certification under direct supervision of a physician (TC & PC), or by a technician with certification under general supervision of a physician (TC only; PC always physician).
7A	Supervision standards for level 77 apply; in addition, the PT with ABPTS certification may personally supervise another PT, but only the PT with ABPTS certification may bill.
09	Concept does not apply.

The provider is responsible for adhering to applicable CMS regulations for diagnostic test supervision.

Credentialing Matrix

The following table reflects CMS supervision requirements, which describes the levels of physician supervision required for furnishing the technical component of diagnostic tests for

Medicare beneficiaries who are not a hospital inpatient or outpatient.

*American Board of Medical Specialty (ABMS), American Board of Nuclear Medicine (ABNM), American Board of Physical Medicine and Rehabilitation (ABPMR), American Board of Psychiatry and Neurology (ABPN), American Osteopathic Association (AOA), or subspecialty certification.

G0248	01	Board Certified* Cardiologist	RN
G0249	01	Board Certified* Cardiologist	Demonstrates Proficiency
G0279	09	Board Certified* Radiologist	State License: General Radiographer or Credentialed by ARRT: R.T.-R and ARRT: R.T.-M
G0398	09	Physician Certified by ABSM or ABMS: Sleep Medicine OR ABFM, ABIM, ABOHNS, ABPN or AOA: Sleep Medicine Subspecialty Certification	Credentialed by BRPT: RPSGT or CPSGT, ABRET: R. EEG T. (Polysomnography) or

			NBRC: CRT, SDS or RRT
G0399	09	Physician Certified by ABSM or ABMS: Sleep Medicine OR ABFM, ABIM, ABOHNS, ABPN or AOA: Sleep Medicine Subspecialty Certification	Credentialed by BRPT: RPSGT or CPSGT, ABRET: R. EEG T. (Polysomnography) or NBRC: CRT, SDS or RRT
G0400	09	Physician Certified by ABSM or ABMS: Sleep Medicine OR ABFM, ABIM, ABOHNS, ABPN or AOA: Sleep Medicine Subspecialty Certification	Credentialed by BRPT: RPSGT or CPSGT, ABRET: R. EEG T. (Polysomnography) or NBRC: CRT, SDS or RRT
Q0035	01	Board Certified* Cardiologist	Credentialed by CCI: CCT, NHA: CET, State Licensed Paramedic or RN

***Note:** The CPT/HCPCS codes that have “Licensed Audiologist” designated with an asterisk in the “Technician Qualification Requirements” column would not be subject to direct supervision of a physician. Licensed Audiologist designated with an asterisk are for CPT/HCPCS codes included on the CMS Audiology Code List (revised CY2023). As defined in the Social Security Act, section 1861(l) (3), the term “audiology services” specifically means such hearing and balance assessment services furnished by a qualified audiologist as the audiologist is legally authorized to perform under State law (or the State regulatory mechanism provided by State law), as would otherwise be covered if furnished by a physician. Additional information on Audiology Services and the CMS Audiology Code List may be found on the CMS website at <https://www.cms.gov/Medicare/Medicare-Fee-For-Service-Payment/PhysicianFeeSched/audiology.html> 

Note: The technical component (TC) of services represented by CPT codes 95925-95927 and 95938-95939 may be performed by an appropriately certified PT. However, in an IDTF supervision by the appropriate physician(s) is required for global and professional component (PC) billing.

Please refer to A56773, Billing and Coding: Neurophysiology Evoked Potentials for additional information on CPT codes 92651-92653, 95925-95930, 95938 and 95939.

Note: Board Certified* Nuclear Medicine meets the supervising physician and interpreting physician qualification requirements for the tests 93015, 93016, 93017, and 93018 when performed in conjunction with myocardial perfusion and cardiac blood pool imaging studies. In this situation, a Certified Nuclear Medicine Technologist (ARRT: N or NMTCB: CNMT) meets the technician qualification requirements for 93015, 93016, and 93017 when performed under direct supervision of a Board Certified* Nuclear Medicine physician.

Note: Nonphysician practitioners such as nurse practitioners (NPs), clinical nurse specialists (CNSs) and physician assistants (PAs) who personally perform diagnostic psychological and neuropsychological tests are excluded from having to perform these tests under the general supervision of a physician or a clinical psychologist (CP). Rather, NPs and CNSs must perform such tests under the requirements of their respective benefit instead of the requirements for diagnostic psychological and neuropsychological tests. Accordingly, NPs and CNSs must perform tests in collaboration (as defined under Medicare law at section 1861(aa)(6) of the Act) with a physician. PAs perform tests under the general supervision of a physician as required for services furnished under the PA benefit. (Reference CMS IOM Pub. 100-02, Chapter 15, Section 80.2)

75801	Lymph vessel x-ray arm/leg

Code	Description
75803	Lymph vessel x-ray arms/legs
75805	Lymph vessel x-ray trunk
75807	Lymph vessel x-ray trunk
75809	Nonvascular shunt x-ray
75810	Vein x-ray spleen/liver
75820	Vein x-ray arm/leg
75822	Vein x-ray arms/legs
75825	Vein x-ray trunk
75827	Vein x-ray chest
75831	Vein x-ray kidney
75833	Vein x-ray kidneys
75840	Vein x-ray adrenal gland
75842	Vein x-ray adrenal glands
75860	Vein x-ray neck
75870	Vein x-ray skull
75872	Vein x-ray skull epidural

Code	Description
75880	Vein x-ray eye socket
75885	Vein x-ray liver w/hemodynam
75887	Vein x-ray liver w/o hemodyn
75889	Vein x-ray liver w/hemodynam
75891	Vein x-ray liver
76000	Fluoroscopy <1 hr phys/qhp
76010	X-ray nose to rectum
76016	Mr safety deter phys/qhp
76017	Mr sfty med physics xm cstmz
76018	Mr safety implant elec prepj
76019	Mr safety implt pos&/immoblj
76080	X-ray exam of fistula
76098	X-ray exam surgical specimen
76100	X-ray exam of body section
76120	Cine/video x-rays
76125	Cine/video x-rays add-on

Code	Description
76376	3d render w/intrp postproces
76377	3d render w/intrp postproces
76380	Cat scan follow-up study
76390	Mr spectroscopy
76391	Mr elastography
76506	Echo exam of head
76510	Oph us dx b-scan&quan a-scan
76511	Oph us dx quan a-scan only
76512	Oph us dx b-scan
76513	Oph us dx ant sgm us uni/bi
76514	Echo exam of eye thickness
76516	Echo exam of eye
76519	Echo exam of eye
76529	Echo exam of eye
76536	Us exam of head and neck
76604	Us exam chest

Code	Description
76641	Ultrasound breast complete
76642	Ultrasound breast limited
76700	Us exam abdom complete
76705	Echo exam of abdomen
76706	Us abdl aorta screen aaa
76770	Us exam abdo back wall comp
76775	Us exam abdo back wall lim
76776	Us exam k transpl w/doppler
76801	Ob us < 14 wks single fetus
76802	Ob us < 14 wks addl fetus
76805	Ob us >= 14 wks snl fetus
76810	Ob us >= 14 wks addl fetus

77071	Mnl appl strs jt radiography

Code	Description
77072	Bone age studies
77073	Bone length studies
77074	Radex osseous survey lmted
77075	Radex osseous survey compl
77076	Radex osseous survey infant
77077	Joint survey single view
77078	Ct bone density axial
77080	Dxa bone density axial
77081	Dxa bone density appendiculr
77084	Mri bone marrow blood supply
77085	Dxa bone density axl vrt fx
77086	Vrt fracture assmt via dxa
77417	Ther radiology port image(s)
78012	Thyroid uptake measurement
78013	Thyroid imaging w/blood flow
78014	Thyroid imaging w/blood flow

Code	Description
78015	Thyroid met imaging
78016	Thyroid met imaging/studies
78018	Thyroid met imaging body
78020	Thyroid met uptake
78070	Parathyroid planar imaging
78071	Parathyrd planar w/wo subtrj
78072	Parathyrd planar w/spect&ct
78075	Adrenal cortex & medulla img
78102	Bone marrow imaging ltd
78103	Bone marrow imaging mult
78104	Bone marrow imaging body
78110	Plasma volume single
78111	Plasma volume multiple
78120	Red cell mass single
78121	Red cell mass multiple
78122	Whl bld volume determination

Code	Description
78130	Red cell survival study
78140	Red cell sequestration
78185	Spleen imaging
78191	Platelet survival study
78195	Lymph system imaging
78201	Liver imaging static only
78202	Liver imaging with vasc flow
78215	Lvr&spleen img static only
78216	Lvr&spleen img w/vasc flow
78226	Hepatobiliary system imaging
78227	Hepatobil syst image w/drug
78230	Salivary gland imaging
78231	Salivary glnd img serial img
78232	Salivary gland function std
78258	Esophageal motility
78261	Gastric mucosa imaging

Code	Description
78262	Gastroesophageal reflux std
78264	Gastric emptying imag study
78265	Gastric emptying imag study
78266	Gastric emptying imag study
78267	Breath tst attain/anal c-14
78268	Breath test analysis c-14
78278	Acute gi blood loss imaging
78282	Gi protein loss exam
78290	Meckels divert exam
78291	Leveen/shunt patency exam
78300	Bone imaging limited area
78305	Bone imaging multiple areas
78306	Bone imaging whole body
78315	Bone imaging 3 phase
78350	Bone mineral single photon
78414	Non-imaging heart function

Code	Description
78428	Cardiac shunt imaging
78429	Myocrd img pet 1 std w/ct
78430	Myocrd img pet rst/strs w/ct
78431	Myocrd img pet rst&strs ct
78432	Myocrd img pet 2rtracer

Group 2 (88 Codes)

Group 2 Paragraph

The following CPT/HCPCS codes are covered additional services considered necessary to perform diagnostic testing in an IDTF.

Note: Positron emission tomography (PET) Radiopharmaceutical/Tracer codes A9597 or A9598 should only be used when there is no existing dedicated PET tracer code available (reference *Medicare Claims Processing Manual*, Chapter 13, Section 60.3.2).

For additional information, please refer to A53134 NCD Coding Article for Positron Emission Tomography (PET) Scans Used for Non-Oncologic Conditions.

Note: Effective for claims with dates of service on or after 12/15/2017, HCPCS code A9580 (NaF-18) is nationally non-covered and all associated NaF-18 PET related coding including PET scan CPT codes are also non-covered.

Group 2 Codes

Code	Description
36415	Coll venous bld venipuncture
A4648	Implantable tissue marker
A9500	Tc99m sestamibi
A9501	Technetium tc-99m teboroxime
A9502	Tc99m tetrofosmin
A9503	Tc99m medronate
A9504	Tc99m apcitide
A9505	Tl201 thallium
A9507	In111 capromab
A9508	I131 iodobenguante, dx

Code	Description
A9515	Choline c-11
A9516	Iodine i-123 sod iodide mic
A9521	Tc99m exametazime
A9526	Nitrogen n-13 ammonia
A9528	Iodine i-131 iodide cap, dx
A9537	Tc99m mebrofenin
A9539	Tc99m pentetate
A9540	Tc99m maa
A9541	Tc99m sulfur colloid
A9547	In111 oxyquinoline
A9548	In111 pentetate
A9550	Tc99m gluceptate
A9551	Tc99m succimer
A9552	F18 fdg
A9555	Rb82 rubidium
A9556	Ga67 gallium

Code	Description
A9558	Xe133 xenon 10mci
A9560	Tc99m labeled rbc
A9561	Tc99m oxidronate
A9562	Tc99m mertiatide
A9567	Technetium tc-99m aerosol
A9569	Technetium tc-99m auto wbc
A9570	Indium in-111 auto wbc
A9571	Indium in-111 auto platelet
A9572	Indium in-111 pentetreotide
A9573	Inj, gadopiclesol, 1 ml
A9575	Inj gadoterate meglumi 0.1ml
A9576	Inj prohance multipack
A9577	Inj multihance
A9578	Inj multihance multipack
A9579	Gad-base mr contrast nos,1ml
A9581	Gadoxetate disodium inj

Code	Description
A9583	Gadofosveset trisodium inj
A9584	Iodine i-123 ioflupane
A9585	Gadobutrol injection
A9586	Florbetapir f18
A9587	Gallium ga-68
A9588	Fluciclovine f-18
A9591	Fluoroestradiol f 18
A9592	Copper cu 64 dotatate diag
A9593	Gallium ga-68 psma-11 ucsf
A9594	Gallium ga-68 psma-11, ucla
A9595	Piflu f-18, dia 1 millicurie
A9596	Gallium illuccix 1 millicure
A9597	Pet, dx, for tumor id, noc
A9598	Pet dx for non-tumor id, noc
A9601	Flortaucipir inj 1 millicuri
A9602	Fluorodopa f-18 diag per mci

Code	Description
A9608	Flotufolastat f18 diag 1 mci
A9609	F18 fdg, 15 millicuries
A9611	Flurpiridaz f18, diag, 1 mci
A9615	Inj, pegulicianine, 1 mg
A9800	Gallium locametz 1 millicuri
J1200	Diphenhydramine hcl injectio
J1245	Dipyridamole injection
J1250	Inj dobutamine hcl/250 mg
J1610	Glucagon hydrochloride/1 mg
J1611	Inj glucagon hcl, fresenius
J1938	Inj, furosemide, 1 mg
J2250	Inj midazolam hydrochloride
J2765	Metoclopramide hcl injection
J2785	Regadenoson injection
J9220	Indigotindisulfonate sod 1mg
Q9950	Inj sulf hexa lipid microsph

Code	Description
Q9951	Locm >= 400 mg/ml iodine,1ml
Q9953	Inj fe-based mr contrast,1ml
Q9954	Oral mr contrast, 100 ml
Q9955	Inj perflexane lip micros,ml
Q9956	Inj octafluoropropane mic,ml
Q9957	Inj perflutren lip micros,ml
Q9965	Locm 100-199mg/ml iodine,1ml
Q9966	Locm 200-299mg/ml iodine,1ml
Q9967	Locm 300-399mg/ml iodine,1ml

Bill Type Codes

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the article does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the article should be assumed to apply equally to all claims.

Code	Description
999x	Not Applicable

Revenue Codes

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the article, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the article should be assumed to apply equally to all Revenue Codes.

Code	Description
99999	Not Applicable

01/01/2025	R25	<p>Article revised and published on 01/30/2025 effective for dates of service on and after 01/01/2025 to reflect the annual CPT/HCPCS Code Update. Numerous Group 1 CPT/HCHCS codes had short or long descriptor changes.</p> <p>The following codes were deleted and therefore removed from the article: 86490, 93890, and G0106.</p> <p>The following codes were added to Group 1 CPT/HCPCS Codes: 76016-76019, 92137, 93896-93898, 0902T-0905T, 0911T, 0912T, 0926T-0934T, 0937T-0939T, and 0940T-0946T.</p> <p>The following code was added to Group 2 CPT/HCPCS Codes: A9615.</p> <p>Additional information regarding the JW/JZ modifiers was added to the article.</p>
11/07/2024	R24	<p>Article revised and published on 11/07/2024 effective for dates of service on and after 07/01/2024. Codes 0877T, 0878T, 0879T, and 0880T became effective 07/01/2024 and were added to the Credentialing Matrix and the Group 1 CPT/HCPCS Codes sections.</p>
09/19/2024	R23	<p>Article revised and published on 09/19/2024. HCPCS codes 76981, 76982, and 76983 have been added to the Credentialing Matrix and the Group 1 CPT/HCPCS Codes sections. This revision is in response to an inquiry.</p>
09/05/2024	R22	<p>Article revised and published on 09/05/2024 to correct typographical errors in Revision History Number R19 below. The Revision History Date listed should be 04/01/2024. Also, In the Public Versions Section Updated</p>

Revision History Date	Revision History Number	Revision History Explanation
		on 03/27/2024, the effective dates should be 04/01/2024-04/24/2024.
07/01/2024	R21	Article revised and published on 07/18/2024. Codes 0868T, 0876T, 0897T, 0898T, 0899T, and 0900T became effective 07/01/2024 and were added to the Credentialing Matrix and the Group 1 CPT/HCPCS Codes sections. CPT 95024 had a short descriptor change. This revision is in response to the July Quarterly CPT/HCPCS Update.
04/25/2024	R20	<p>Article revised and published on 04/25/2024 effective for dates of service on and after 01/01/2024. Codes 93297 and 93298 in the Credentialing Matrix have updated supervision levels and technician qualification requirements. This is in response to an inquiry.</p> <p>The following CPT codes have been added to Group 1 CPT/HCPCS codes section: 91110, 91111, 92230, 92511.</p> <p>The Physician Supervision of Diagnostic Procedures section has been reformatted into a table.</p> <p>The following sentence has been removed under the above table: The level of physician supervision required for diagnostic procedures can be found in the Medical Physician Fee Schedule Database (MPFSDB).</p> <p>Minor typographical corrections.</p>
04/04/2024	R19	Article revised and published on 04/04/2024. The following CPT codes have been added to the ‘Credentialing Matrix’ with applicable levels of physician supervision and technician requirements: 19000, 19001,

Revision History Date	Revision History Number	Revision History Explanation
		<p>19281, 19283, 19285, 20501, 23350, 24220, 25246, 27093, 27095, 42550, 51600, 51610, 51798, 58340, 62284, 62302, 62303, 62304, 62305, 70554, 70555, 86485, 86490, 86580, 91110, 91111, 92025, 92230, 92511, 92611, 93792, 94774, 94775, 94776, 94777, 95004, 95024, 95027, 96112, 96113, 96116, 96121, 96130, 96131, 96132, 96133, 96136, 96137, 96138, 96139, and 96146. Within the 'Credentialing Matrix' the physician supervision requirements have been updated for the following codes: 76881 and 76882 requires level 09, 95806 requires level 01. The following code has been added to Group 2 CPT/HCPCS codes: A4648. In response to the April Quarterly CPT/HCPCS Update, the following codes have been deleted from Group 2 CPT/HCPCS codes: J1020, J1030, and J1040.</p> <p>Additionally, the article text has been revised to include billing and coding information from the LCD as the LCD is being retired. This information includes updated IOM and CFR references, physician requirements, and additional services/supplies. The 'Credentialing Matrix', CPT/HCPCS Group 1 and 2 Codes have been updated to be uniform across jurisdictions.</p>
01/01/2024	R18	<p>Article revised and published on 01/25/2024 effective for dates of service on and after 01/01/2024 to reflect the Annual HCPCS/CPT Code Updates. The following CPT codes have been added to the 'Credentialing Matrix' with applicable levels of physician supervision and supervising physician and technician qualification requirements, and to the CPT/HCPCS Group 1 Codes: 75580, 93584, 93585, 93586, 93587 and 93588. The following HCPCS codes have been added to the CPT/HCPCS Group 2 Codes: A9608 and A9609.</p>

Revision History Date	Revision History Number	Revision History Explanation
-----------------------	-------------------------	------------------------------

The following CPT/HCPCS codes have been deleted and therefore have been removed from the article: 74710, 0501T, 0502T, 0503T, 0504T, 0508T and G2066.

For the following CPT/HCPCS codes either the short description and/or the long description was changed. Depending on which description is used in this article, there may not be any change in how the code displays: 92060, 92081, 92082, 92083, 92100, 92235, 92240, 92242, 92250, 92265, 92270, 92283, 92285, 92286, 93241, 93242, 93243, 93244, 93245, 93246, 93247, 93248 (CPT/HCPCS Group 1 Codes).

The article was also revised in response to an inquiry. The following statement near the bottom of the 'Physician Supervision of Diagnostic Procedures' section: Note: The minimal level of physician supervision, which applies to ALL diagnostic tests, with the exceptions listed in the regulation, is "general supervision" has been replaced with the following: "The provider is responsible for adhering to applicable CMS regulations for diagnostic test supervision."

10/01/2023	R17	Article revised and published on 10/05/2023 effective for dates of service on and after 10/01/2023 to reflect the October Quarterly CPT/HCPCS Update. The following HCPCS code has been added to the article: A9573 in Group 2 Codes.
